TECHNOLOGY FOR OFF-GRID LIVING

There's no sacrificing creature comforts and the off-grid lifestyle has never been easier with a 600amp lithium and REDARC battery monitoring system as standard. Stay in remote areas for longer and enjoy your caravanning adventures to the fullest!

PREMIUM LIGHTING

When the sun goes down plenty of light is a must. With a built-in monitoring system, you can control multiple on-board devices, such as turning lights on and off, at the touch of a button or your smart phone. External awning lights are included in orange or white to keep those pesky bugs at bay.

FEATURE PACKED FOR OFF-ROAD
