

Goldstream RV.

CAMPER

PRODUCT RANGE

STORM RL OFFROAD

A group of people are gathered around a campfire at night, sitting on the ground and chairs. They are illuminated by the warm glow of the fire. In the background, a large, gnarled tree with thick branches stands prominently. The scene is set outdoors, with a body of water visible in the distance, reflecting the light from the fire and the dark sky. The overall atmosphere is peaceful and adventurous.

TAKING YOU PLACES
NEVER BEFORE EXPLORED

Since 1993, Goldstream RV have been providing couples and families with quality Australian Made vans that will take you further in discovering the beauty and vastness of our great country. Now more than ever, we continue to strengthen our commitment to our customers, our brand, our people and our product, drawing on over 28 years' experience to bring you the best in quality and reliability. So whether you're traversing our rugged outback tracks, cruising the coast or simply spending quality time with family and friends in a caravan park, you can rest assured knowing you have invested in a van made right here using the highest quality materials and with the latest designs, styling and technology. Our reputation has grown to what it is today from this solid background, with many of our owners going on to be repeat customers, safe in the knowledge they are buying a van with great resale value.

Welcome to the Goldstream RV Camper Trailer range, your world of adventure starts here.

STORM

The Storm is the largest Camper Trailer in our line-up and is designed to provide space for all the family. It has been our leading camper for well over 25 years and there is good reason it continues to be a top choice.

Once you step inside you immediately get the sense of space and openness, unzip the immense windows and feel at one alongside nature with a full 360 degree view plus the protection of flyscreens throughout, but if it's some privacy you want then simply close the 100% blackout curtains.

Cook up a storm for the family with it's huge internal kitchen with 4 burner stove and grill, stainless steel sink with 12 volt pump and large 3 way fridge. There's also plenty of bench space, sitting higher than all other campers on the market. Internal space has been maximised, with numerous large storage drawers and cupboards with shelving throughout. If you are wanting additional storage it's easy to add overhead storage with the Sky Track profile installed to every Camper roof.

The club lounge seating areas are big enough to seat a family comfortably and are the perfect spot for family meals or a board game while the expansive bench and cupboard space makes the Storm models a great family choice. On the outside, the Storm Camper models have roll-out stoves as standard great for a quick meal stop along the way, a large front storage boot and a side opening access door ideal for storing additional items.

WING

The Wing is where it all began over twenty eight years ago now and yet it's still a favourite! With 3 different layouts rounding out the range, there's sure to be one to suit your family's needs. The Wing 3 layout is designed for the largest of families and comprises of a huge club lounge at the front, a large table and dinette area and a spacious kitchen which runs down the side of the camper. The Wing 3 will sleep 6 with ease and even more with the optional club lounge table at the front.

Our Wing 3 ST has all your comforts covered and is the most luxurious layout including an internal shower cubicle and toilet complete with hand basin, perfect for free camping and complying with increasing self-sufficiency requirements of many national parks across the country. The front of the Camper has a large L shaped seating area and a dinette seat opposite the table. The kitchen offers generous bench and preparation space and comes with 91L fridge, 4-burner stove and sink. This Camper is perfect for a family holiday with all the conveniences.

Wing 2 RL is our smallest body Camper Trailer, but big on useable space. With a size suited to modern garage storage capabilities this model is surprisingly large on the inside, with a large seating table area that will comfortably seat 4 people with ease. Plenty of storage under seats and a large size kitchen with more cupboard and bench space than anything else on the market in its size. Preparing meals will be a dream, it may look compact but it's big on design and floor space. Again the Sky Track profile has been added to all models to allow easy additional overhead storage to be added.

CROWN

The Crown Camper Trailer is all about convenience, suited to 1-2 travellers, it can be set up within minutes and is easy and light weight to tow. We have 2 very different internal layouts in the Crown depending on your needs.

Our Crown model offers a large café lounge seating area at the rear providing ample room for 4 adults and will easily convert to a double bed by dropping the table if needed. It has a large kitchen running down the driver's side of the van and comes complete with 91L fridge, sink, microwave oven, 4-burner grill plus plenty of cupboard and bench space. Above the front bed is a large 3-door overhead cupboard providing loads of additional storage space. The bed frame lifts up on gas struts to reveal more storage underneath. There is also an external access door which gives easy access to items that need to be got at quickly.

Our Crown ST model has generous seating for 2 people in the L-shape lounge located near the door, a large kitchen and loads of bench space. It has the same lift up bed and overhead cupboard as the Crown. In addition, the ST model features an internal shower and toilet providing the latest in self-sufficiency and convenience, whilst still taking only minutes to set up. It also comes with 2 x 9kg gas bottles and 2 x 59L water tanks along with a gas hot water service as standard to provide plenty of hot water to the shower and sink.

THUNDER

The Thunder model was designed to make the most of open-air living, so if you long to spend maximum time enjoying the great outdoors this is the Camper Trailer for you! The Thunder is very different from our other Camper models in that all the cooking is completely external, with a slide-out kitchen featuring a 3-burner stove and sink complimented by a picnic table with large external pantry. On the inside a 91L 3-way fridge sits neatly out of the way towards the rear of the camper. With the kitchen relocated to the great outdoors the internal space in the Thunder is something to behold!

The Thunder is designed to sleep 5 people with ease, a separate queen bed at the rear and a double bed at the front, alongside the seating area. The front section of the lounge is extra deep to accommodate the slide out kitchen stored beneath it, not only does this make a luxurious place to relax, it also doubles nicely as an additional sleeping area without the need for a drop down table. Making it a more practical everyday solution for families. Opposite this seating area is another return seat backing up to the bench space with the table nestled in between. This area will comfortably seat 5 adults.
